PROFESSIONAL SUMMARY

Computer Science graduate currently pursuing an M.Sc. in Data Science with a strong interest in web development, artificial intelligence, and cybersecurity. Experienced in building modern web applications and using AI tools and prompt engineering to enhance software development and productivity. Passionate about continuous learning, problem-solving, and developing practical technology solutions. Seeking an entry-level opportunity where I can apply my skills, gain industry experience, and grow as a software professional.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python (Basic), SQL (Basic), HTML5, CSS3

Frontend: React.js, Vite, Tailwind CSS, Responsive Web Design

Databases: MySQL, REST APIs

Backend: Node.js, Express.js *(Project Experience)*

Cybersecurity: Kali Linux, Linux Commands, Nmap, Burp Suite (Basic), Wireshark (Basic), OWASP Top 10

AI & Data Science: AI-Assisted Development, Prompt Engineering, Data Science Fundamentals

Developer Tools: Git, GitHub, VS Code, Postman, npm, Vercel

Operating Systems: Windows 11, Linux, Kali Linux

PROJECT

GoKaliFree — Cybersecurity Learning Platform **2026 – Present**

React.js, TypeScript, Vite, Node.js, Express.js, HTML, CSS, JavaScript, Git, Vercel | Live: gokalifree.in

Developed and currently maintain cybersecurity learning platform featuring 70+ security tools, 164 Linux commands, and 111 educational articles.

- Designed and developed a client-side React SPA deployed on Vercel, covering 70+ security tools, 164 Linux commands, and 111 articles for beginners and professionals learning ethical hacking.
- Built interactive, browser-based security utilities and a terminal sandbox to let users practice tools and commands directly in the browser without local setup.
- Owned end-to-end SEO strategy — including sitemap structure, keyword clustering, and internal linking — to improve organic discoverability across the tool and article library.

NexusStream – **Universal Video Streaming Web Application**

React.js, Node.js, Express.js, ***GitHub: NexusStream***

Built a video streaming web application supporting **MP4, HLS, DASH, YouTube, and Vimeo** with automatic format detection.

- Developed a custom player with adaptive streaming, playback controls, Picture-in-Picture, and fullscreen support.
- Created a Node.js CORS proxy for secure video streaming and improved user experience with stream history and responsive design.

EDUCATION

Master of Science (M.Sc.) in Data Science — Pursuing **2026 – Present**
Savitribai Phule Pune University (SPPU)

Bachelor of Computer Science (B.C.S.) **2023 – 2026**
Savitribai Phule Pune University (SPPU)
C.G.P.A. : ***7.09*** *Final Grade :* ***A***
